

Subject Index

Volume 24

- Absorption**
sodium, water, solvent drag, 1393
- Abstracts, The American Society for Clinical Nutrition Eleventh Annual Meeting, 595**
- Alcohol**
consumption patterns, dietary intake, 1042
- Alcoholism**
hepatic changes, rats, 628
- Allopurinol**
pyrrolase inhibitor, 830
- Alpha-tocopherol**
deficiency, tissue peroxidation, 1232
linoleic acid, β -glucuronidase activity, 1232
- American College of Nutrition**
twelfth annual session, 1290
- Amino acids: see also Nitrogen; Nitrogen balance; Protein; individual amino acids**
absorption, 329
analyses, 876, 934
essential, intake, experimental rice diet, 318, 324
human milk, 970
plasma
artifacts, handling techniques, analyses, 876
behavioral changes, schizophrenic patients, 1053
concentrations, circadian periodicity, disorders, 329
E/N ratio, kwashiorkor, Mexico, 353
E/N ratios, wheat diets, 181
equilibrium system, 876
low vitamin B₆ diet, time element, 1028
membrane transport, periodicity, nutritional state, 876
methionine, cysteine loading, schizophrenic patients, 1053
nutrition, concentrations, 876
protein ingestion, 329
rhythmicity, dietary intake, enzymes, hormones, 329
plasma free, lysine-enriched wheat flour diets, infants, 200
requirements, low nitrogen diet, 1216
transport systems, 329
tryptophan, threonine removal effects, 718
urinary, analytical procedures, 934
- Anemia: see also Iron; Folic acid; Vitamin B₁₂**
frequency, malnourished Ethiopian children, 578
low incidence, !Kung Bushmen, 229
megaloblastic, folic acid deficiency, 1337
megaloblastic, intestinal structure, 622
response, vitamin E therapy, 388
- Anthropometry**
age-independent, nutritionally labile tissues, 1377
ethnic differences, skin folds, 864
- Antibiotics: see also specific drugs**
growth stimulating, inhibitory effects, 260
- Antibodies**
synthesis impairment, vitamin deficiency, 265
- Antioxidants**
lipid peroxidation, hemolysis inhibitors, 7
- Arteriosclerosis**
children, homocystinuria, 1250
- ASCN**
abstracts, 595
program, 283, 381, 593
- Ascorbic acid**
antibody production, 265
body pool levels, 383, 432
clinical manifestations, deficiency, 432
deficiency, behavioral changes, 455
deficiency, cholesterol catabolism, 1238
high intake, common cold, 1294
metabolism, ¹⁴C-, ³H-labeled, 444
radioactive administration, experimental scurvy, 432, 444
scurvy symptoms, 1301
- Atherogenesis**
cholesterol/phospholipid ratio, lipoproteins, 1074
- Atherosclerosis**
absence, Masai, 1291
lipids, 344, 1074
- Bile acids**
and intestinal cholesterol synthesis, 70
conjugation with glycine and taurine, 218
G/T ratios, pathological disorders, 218
- Blind loop syndrome**
bile acid metabolism, 218
- Blood**
cord, maternal, vitamin levels, 704
plasma, vitamin A and protein levels, 510
- Blood group substances**
biosynthesis, 488
- Blood pressure**
sodium, potassium intake, 605
- Body density**
anthropometric measurements, prediction equations, 1308
- Calcium**
metabolism, fluoride, osteoporosis, 20
- Calorie restriction**
metabolic aspects, nutrient balances, 913
thiamin, riboflavin, pyridoxine excretion, 1060
- Cancer**
bladder, 3-hydroxyanthranilic acid, 3-hydroxykynurenine excretion, 751

- Cancer—Continued**
 bladder, urinary tryptophan metabolites, 841, 848
 registry, 841
 tryptophan therapy, 821
- Carbohydrates**
 antinatriuretic action, 869
 blood levels of pyruvic acid and glucose, 615
- Casein**
 in fish protein concentrate, 1384
- Celiac disease**
 gluten-free diet, 91
- Cells**
 development, fetus, 144
 differentiating, physiologic properties, 45
 epithelial, gastric mucosa, 137
 epithelial membrane, 45
 phagocytizing, 272
- Ceramides**, 1086
- Cereals**
 wheat utilization, 181
- Cerebral palsy**, 1438
- Cerebrosides**
 separation and silylation, 1086
- Children**
 cirrhosis, aflatoxin, 609
 energy expenditure, 1451
 feeding practices, 1320
 feeding problems and intelligence, 1207
 heart-rate measurements, 1446
 heart-rate telemetry, 1457
 height, weight data, 499, 891
 malnourished, linear hypoplasia, 29
 malnourished, lysine supplementation, 1246
 mortality trends, PCM, 480
- Cholecalciferol**, 1346
- Cholecystokinin-pancreozymin**, 160
- Cholera**
 transport effect, 1393
- Cholesterol**
 catabolism, 1238
 control mechanisms, 70
 endogenous metabolism, 70
 serum
 concentrations, 1074
 dietary proteins, 524
 glucose intolerance, 855
 Masai, 1291
 oral L-histidine, 1382
 test meal, 1300
 thinness, 344
- Cholestyramine**
 bile acid sequestration, 218
- Chromium**
 marasmic PCM, blood sugar levels, 1313
- Cinnabarinic acid**
 hepatic enzyme induction, 766
- Citrus juices**
 folate content, 1390
- Comments in Biochemistry**, 207, 329, 488, 556, 642, 869
- Comments in Gastroenterology**, 218, 872, 1393
- Copper**
 binding, alimentary secretions, 1025
- Coronary heart disease**
 Framingham Heart Study, 1074
 risk factors, 1074
- Cortisol**
 increased absorption, glucose ingestion, 1393
 xanthurenic acid excretion, 740
- Creatinine**
 urinary excretion/height index, 385
 urinary excretion, lean body mass, 386
- Cysteine**
 amino acid imbalance, schizophrenic patients, 1053
- Dental development**
 response to nutritional extremes, 285
- Diarrhea**
 chronic, jejunal histology, 112
Giardia lamblia infection, 124
- Diet**
 and specific tissue protein synthesis, 947
 ascorbic acid-deficient, 444
 composition, calorie restriction, 913
 composition, FPC study, 311
 composition, Vietnamese, 38
 corn, pellagrins, 730
 diabetes mellitus and gallbladder disease, 1281
 enzyme activity, goat's milk, 1224
 experimental, low vitamin B₆, 1028
 experimental wheat, 181
 gluten-free, celiac disease, 91
 high protein-low folate, 1337
 iron and folate content, 229
 iron and protein deficient, 411
 isocaloric, isoprotein reduction, 290
 low nitrogen, amino acid requirements, 1216
 metabolic balance studies, 1276
 patterns, Puerto Rico, 952
 Pima Indian women, 1281
 random 24-hr recall, 304
 religious influence, Indian women, 1097
 survival rations, evaluation, 513
 tryptophan oxygenase levels and infection, 807
 wheat-based, nitrogen retention, 1246
- Dietary Management and Therapy**, 930, 1337
- Digestion**
 hormonal-vagal control, homeostasis, 160
- Disaccharidase**
 decreased and iron deficiency, 411
- Editorial**, 169
- Electrolytes**
 excretion, 1060
- Energy**
 cost, physical activities, 1431
 work cost, determination, 1410, 1418
- Energy expenditure: see also Physical activity analysis**, 1171
 assessment methods, 1111
 determination by heart-rate telemetry, 1446
 dietary intake and obesity, 1410
 direct measurement, 1418
 errors by Kofranyi-Michaelis method, 1431
 estimation by heart-rate telemetry, 1471
 heart rate and body build, 1461

- heart rate and individualized exercise, 1186
- heart-rate integrator, 1446, 1467, 1476
- heart-rate response, 1126
- heart rate, schoolgirls, 1482
- measurement in agricultural activities, 1418
- measurement techniques, 1126, 1148
- measurement, work load and oxygen consumption, 1126
- net heart-rate relationships, 1139
- oxygen consumption-heart rate relationships, 1148
- oxygen-handling efficiency, 1451
- physiological work, 1180
- prediction equations, 1164
- pulse rate-oxygen consumption relationships, 1164
- weight changes, 1405
- work, leisure time components, 1113
- Enzymes: *see also* specific enzymes
 - erythrocyte aminotransferase, 704
 - glycolytic activity, 65
 - intestinal alkaline phosphatase and disaccharidase activities, 1224
 - jejunal glycolytic, 1393
 - mannose-, fucose-containing polysaccharides, 556
 - pyridine nucleotides, 800
 - sequential changes in infection, 807
 - tryptophan and nicotinic acid pathways, 792
 - tryptophan oxygenase and pyruvic aminotransferase activity, 699
 - tryptophan pyrrolase adaptation, 740
 - tryptophan pyrrolase and vitamin B₆ activity, 730
 - tryptophan pyrrolase, hydroxylase inhibitors, 815
- Epidemiological investigations
 - children, Sweden, 1361

 - tryptophan metabolites, vitamin B₆ excretion, 297
- Urolithiasis
- etiological, dietary factors, 32
- V**itamins
- erythrocyte penetration, transport mechanisms, 924
 - urinary excretion, wheat diets, 547
- Vitamin A
- transport, albumin, 510
- Vitamin B₆
- assessment, daily requirement, 1028
 - deficiency, immune processes, 265
 - enzyme activity, 1250
 - metabolic role, tryptophan-niacin pathway, 1250
 - metabolism and oral contraceptives, 297, 684
 - requirement, oral contraceptive users, altered tryptophan metabolism, 684, 699, 970
 - tryptophan metabolites, 821
 - vitamins, pregnancy requirement, 704
- Vitamin B₁₂
- megaloblastic anemia, folic acid, 622
 - small bowel resection, 133
- Vitamin C: *see* Ascorbic acid
- Vitamin D
- biologically active form, kidney-produced hormone, 1346
 - calcium transport, 1346
- Vitamin D₃: *see also* Cholecalciferol
- calcium and plasma protein transport, 897, 1346
- Vitamin E: *see also* Alpha-tocopherol
- cellular metabolic role, conference, 1374
 - hemolysis inhibitors, 7
- Vitamin K
- therapy, newborns, 970
- W**ater
- absorption, glucose, 1393
 - diuresis, 869
- Weight loss
- decreased energy expenditure, 1405
 - fasting, 287, 1060
 - individualized exercise program, 1186
 - meal frequency, nitrogen balance, 465
- Weight reduction
- low calorie diet, dextroamphetamine, 14
- Wheat
- metabolic utilization of nutrients, 547
- Wine
- glucose, alcohol levels, 394
- X**anthurenic acid
- diabetogenesis, vitamin B₆ therapy, 1250
 - tryptophan, 297, 684
 - urinary excretion, tryptophan loading, vitamin B₆ deficiency, 684, 740
- Y**ohimbine
- pyrrolase inhibitor, 830
- Z**inc
- deficiency, high phytate wheat, 1204
 - plasma, hair concentrations, 506
- Zollinger-Ellison syndrome
- gastric hypersecretion, parietal cell hyperplasia, 137, 160

CONTENTS

VOLUME 24

Number 1, January 1971

Letters to the editor

- 1 Folic acid deficiency in the Cauca Valley (Colombia). *J. Ghitis*
- 2 Mariposa. *A. Blumenfeld*
- 2 Editor's reply.

Original communications

- 3 Study of vitamin B₁₂ and folic acid deficiency in hookworm disease. *A. K. Saraya, B. N. Tandon and K. Ramachandran*
- 7 Mechanism of the hydrogen peroxide hemolysis test and its reversal with phenols. *S. Younkin, F. A. Oski and L. A. Barnes*
- 14 Gross composition of weight loss in obese men on a 400-calorie diet. *T. H. Allen and P. W. Musgrave*
- 20 Effects of fluoride on calcium metabolism in osteoporosis. *S. H. Cohn, C. S. Dombrowski, W. Hauser and H. L. Atkins*
- 29 Linear hypoplasia of deciduous incisor teeth in malnourished children. *E. A. Sweeney, A. J. Saffir and R. de Leon*

International nutrition

- 32 Studies on the etiology of urolithiasis in Karachi. *S. Shahjehan and M. Ataur Rahman*
- 38 Nutritional value and composition in foodstuffs of the diet of the Vietnamese rural adult. *Trần Vỹ*

41 Nutrition news

Symposium

- Structure and function of the gut. Guest editor *T. M. Bayless*
- 44 Introduction. *T. M. Bayless*
 - 45 The epithelial "membrane" of the small intestine. *W. Rubin*
 - 65 Dietary regulation of small intestinal enzyme activity in man. *N. S. Rosensweig, R. H. Herman and F. B. Stifel*
 - 70 Cholesterol synthesis by the gastrointestinal tract. *J. M. Dietschy and H. J. Weis*
 - 77 Intestinal mucosal lacteal in transport of macromolecules and chylomicrons. *W. O. Dobbins, III*
 - 91 Celiac disease. *W. Rubin*
 - 112 Jejunal histology and clinical status in tropical sprue and other chronic diarrheal disorders. *T. M. Bayless, V. L. Swanson and M. S. Wheby*
 - 117 Comparison of ileal and jejunal biopsies in tropical sprue. *M. S. Wheby, V. L. Swanson and T. M. Bayless*
 - 124 Structure and function of the small intestine in some parasite diseases. *L. L. Brandborg*

- 133 Intestinal adaptation to small bowel resection. *E. Weser*
137 Human gastric mucosa: correlation of structure and function. *G. V. Rohrer*
144 Development of structure and function in the fetal and newborn stomach.
J. S. Deren
160 Digestion, maldigestion, and the gastrointestinal hormones. *V. L. W. Go and*
W. H. J. Summerskill

Number 2, February 1971

Editorial

- 169 The many-faceted mystique of monosodium glutamate. *M. E. Rubini*

Brief communications

- 172 Failure to demonstrate retinyl palmitate hydrolase in rat liver. *D. L. Yeung*
and M. J. Veen-Baigent
174 An age-independent anthropometric index of nutritional status. *A. E. Dugdale*

Original communications

- 177 Rapid determination of taste threshold: a group procedure. *M. F. Kelty and*
J. Mayer
181 Utilization of wheat by adult man: nitrogen metabolism, plasma amino acids
and lipids. *C. H. Edwards, L. K. Booker, C. H. Rumph, W. G. Wright and*
S. N. Ganapathy
194 Dietary protein level and serum and erythrocyte lipids in young adult males.
C. E. Elson, E. Humleker and L. Pascal
200 Lysine enrichment of wheat flour: prolonged feeding of infants. *G. G. Graham,*
E. Morales, A. Cordano and R. P. Placko

Comments in biochemistry

- 207 Histidine metabolism. *F. B. Stifel and R. H. Herman*

Comments in gastroenterology

- 218 Physiological basis of alterations in the relative conjugation of bile acids with
glycine and taurine. *J. T. Garbutt, L. Lack and M. P. Tyor*

International nutrition

- 229 Iron, folate, and vitamin B₁₂ nutrition in a hunter-gatherer people: a study of the
!Kung Bushmen. *J. Metz, D. Hart and H. C. Harpending*

Reports of meetings

- 243 Biochemistry and pathology of tryptophan metabolism and its regulation by
amino acids, vitamin B₆, and steroid hormones. *R. R. Brown*

- 246 Nutrition news

Symposium

- Nutrition and infection. Guest editor *J. J. Vitale*
- 248 Introduction. *J. J. Vitale*
- 249 Infection and nutrition of children of a low socioeconomic rural community. *L. J. Mata, J. J. Urrutia and A. Lechtig*
- 260 Antibiotics and nutrition. *H. A. Berman and L. Weinstein*
- 265 Immune processes in vitamin deficiency states. *A. E. Axelrod*
- 272 The biochemical and antimicrobial activities of phagocytizing cells. *A. J. Sbarra, A. A. Jacobs, R. R. Strauss, B. B. Paul and G. W. Mitchell, Jr.*
- 283 Program, Eleventh Annual Meeting, American Society for Clinical Nutrition, Inc.

Number 3, March 1971**Guest editorial**

- 285 The effect of nutritional extremes on dental development. *S. M. Garn and A. L. Russell*

Letters to the editor

- 287 Weight loss during fasting. *G. B. Forbes*
- 287 Diet and management of obesity. *G. E. Schauf*
- 288 Reply to Dr. Schauf. *G. A. Bray*

Original communications

- 290 Effect on body composition and other parameters in obese young men of carbohydrate level of reduction diet. *C. M. Young, S. S. Scanlan, H. Sook Im and L. Lutwak*
- 297 Oral contraceptives and vitamin B₆ metabolism. *H. E. Aly, E. A. Donald and M. H. W. Simpson*
- 304 Random repeat 24-hour dietary recalls. *M. Balogh, H. H. Kahn and J. H. Medalie*
- 311 Availability in man of protein and minerals from fish protein concentrate. *H. Spencer, J. Samachson, J. Fowler and M. J. Kulka*
- 318 Nitrogen retention of young men fed rice with or without supplementary chicken. *C.-J. Lee, J. M. Howe, K. Carlson and H. E. Clark*
- 324 Nitrogen retention of adult human subjects fed a high protein rice. *H. E. Clark, J. M. Howe and C.-J. Lee*

Comments in biochemistry

- 329 Rhythmicity of plasma amino acids and relation to dietary intake. *R. D. Feigin, W. R. Beisel and R. W. Wannemacher, Jr.*

International nutrition

- 342 Human nutrition in France. *J. Trémolières*
- 344 Serum lipids, skin-fold thickness, body bulk, and body weight of native Cape

- Verdeans, New England Cape Verdeans, and United States factory workers. *M. J. Albrink and J. W. Meigs*
- 353 Plasma amino acids in children from Guadalajara with kwashiorkor. *H. Padilla, A. Sanchez, R. N. Powell, C. Umezawa, M. E. Swendseid, P. M. Prado and R. Sigala*
- 358 Epidemiology of famine in the Nigerian crisis: rapid evaluation of malnutrition by height and arm circumference in large populations. *L. E. Davis*
- 365 Dietary studies in Ethiopia: dietary pattern among the Rift Valley Arsi Galla. *R. Selinus, A. Gobeze, K. E. Knutsson and B. Vahlquist*

Reports of meetings

- 378 Nutrition and relief operations in times of disaster. *B. Vahlquist*

Nutrition news

- 380 The Norman Jolliffe Medical Student Fellowship Awards.
- 381 Program, Eleventh Annual Meeting ASCN.

Number 4, April 1971

Guest editorial

- 383 What's new about scurvy? *R. E. Hodges*

Letters to the editor

- 385 Creatinine-height index. *J. Mendez and E. R. Buskirk*
- 386 Reply to Drs. Mendez and Buskirk. *F. E. Viteri, J. Alvarado and G. A. O. Alleyne*

Brief communications

- 388 Effect of alpha-tocopherol administration on red cell survival in vitamin E-deficient human subjects. *P. J. Leonard and M. S. Losowsky*
- 394 Blood glucose and alcohol levels after administration of wine to human subjects. *H. R. Murdock, Jr.*
- 397 Variation in the fatty acid distribution of filled milk beverages. *R. A. Horvath, W. H. Brown and J. W. Stull*
- 401 Evidence in man for different specialized intestinal transport mechanisms for riboflavin and thiamin. *G. Levy and R. R. Hewitt*
- 405 Protein deprivation: comparative response of hair roots, serum protein, and urinary nitrogen. *R. B. Bradfield*

Original communications

- 411 Small intestinal disaccharidase activities in experimental iron and protein deficiency. *A. Sriratanaban and W. R. Thayer, Jr.*
- 416 Dietary protein quality in infants and children. IV. A corn-soy-milk blend. *G. G. Graham, E. Morales, G. Acevedo, R. P. Placko and A. Cordano*
- 423 Adequate phenylalanine intake for optimum growth and development in the treatment of phenylketonuria. *B. A. Smith and H. A. Waisman*

- 432 Clinical manifestations of ascorbic acid deficiency in man. *R. E. Hodges, J. Hood, J. E. Canham, H. E. Sauberlich and E. M. Baker*
- 444 Metabolism of ^{14}C - and ^3H -labeled L-ascorbic acid in human scurvy. *E. M. Baker, R. E. Hodges, J. Hood, H. E. Sauberlich, S. C. March and J. E. Canham*
- 455 Some behavioral effects of ascorbic acid deficiency. *R. A. Kinsman and J. Hood*
- 465 Meal frequency and weight reduction of young women. *B. Finkelstein and B. A. Fryer*
- 469 Total liver storage iron in normal populations of the USA. *P. Sturgeon and A. Shoden*
- 475 Proteinuria and mild glucose intolerance. *E. Kessler, Y. Jung, R. C. Khurana, D. G. Corredor and T. S. Danowski*

Perspectives in nutrition

- 480 Nutrition and mortality in infancy and early childhood: past and present relationships. *W. R. Aykroyd*

Comments in biochemistry

- 488 Mannose metabolism. I. *R. H. Herman*

PHS publications

- 499 Height and weight of children.
- 500 Nutrition news
- 501 Program, Eleventh Annual Meeting, ASCN.

Number 5, May 1971

Letters to the editor

- 503 Stimulation of intestinal sodium absorption by sugars. *J. S. Fordtran and F. C. Rector*
- 504 Reply to Dr. Fordtran. *S. G. Schultz and P. F. Curran*

Brief communications

- 506 Correlation of zinc concentrations in human plasma and hair. *L. D. McBean, M. Mahloudji, J. G. Reinhold and J. A. Halsted*
- 510 Correlation between plasma levels of vitamin A and proteins in children. *L. K. Kothari, K. B. Lal, D. K. Srivastava and Rameshwar Sharma*

Original communications

- 513 An evaluation of various survival rations. *R. E. Davenport, J. K. Spaide and R. E. Hodges*
- 524 Effect on man's serum lipids of two proteins with different amino acid composition. *J. T. Anderson, F. Grande and A. Keys*
- 531 Iron absorption from veal muscle. *C. Martínez-Torres and M. Layrisse*
- 541 Skin-fold thickness and muscle size: implications for developmental status and

nutritional evaluation of children from Honduras. *A. R. Frisanchi and S. M. Garn*

- 547 Utilization of wheat by adult man: excretion of vitamins and minerals. *C. H. Edwards, L. K. Booker, C. H. Rumph, R. Craven and S. N. Ganapathy*

Comments in biochemistry

- 566 Mannose metabolism. II. *R. H. Herman*

Perspectives in nutrition

- 562 Losses of vitamins and trace minerals resulting from processing and preservation of foods. *H. A. Schroeder*

International nutrition

- 574 Malabsorption in asymptomatic Liberian children. *A. R. Rhodes, N. Shea and J. Lindenbaum*
- 578 An applied nutrition program in an Ethiopian rural community. *Y. Hofvander and R. Eksmyr*
- 593 Program, Eleventh Annual Meeting. ASCN
- 595 Abstracts

Number 6, June 1971

Brief communications

- 605 Relationship of sodium and potassium intake to blood pressure. *G. Gros, J. M. Weller and S. W. Hoobler*
- 609 Cirrhosis in children from peanut meal contaminated by aflatoxin. *I. Amla, C. S. Kamala, G. S. Gopalakrishna, A. P. Jayaraj, V. Sreenivasamurthy and H. A. B. Parpia*

Original communications

- 615 Metabolic changes after test meals with different carbohydrates: blood levels of pyruvic acid, glucose, and lactic dehydrogenase. *F. L. Meyer, H. Mattox, M. Bolick and C. MacDonald*
- 622 Intestinal structure and function in megaloblastic anemia in adults. *A. K. Saraya, B. N. Tandon, K. Ramachandran and B. Saikia*
- 628 Hepatic changes in chronic alcoholic rats following periodic acute alcoholic intoxications. *J. Takeuchi, A. Takada, Y. Kato, Y. Hasumura, F. Ikegami and Y. Matsuda*
- 637 Iron and folate nutrition in a group of private obstetrical patients. *G. S. D. Cantlie, N. K. M. de Leeuw and L. Lowenstein*

Comments in biochemistry

- 642 Hexokinase: a compartmented enzyme. *J. W. Anderson, R. H. Herman, J. B. Tyrrell and R. M. Cohn*

Symposium

Biochemistry and pathology of tryptophan metabolism and its regulation by amino acids, vitamin B₆ and steroid hormones. Guest editor *R. R. Brown*

Part I

- 653 Introduction. *R. R. Brown*
- 659 Quantitative aspects of tryptophan metabolism in humans and other species: a review. *J. E. Leklem*
- 673 Excretion of tryptophan metabolites as affected by pregnancy, contraceptive steroids, and steroid hormones. *D. P. Rose and I. P. Braidman*
- 684 Vitamin B₆ metabolism in users of oral contraceptive agents. I. Abnormal urinary xanthurenic acid excretion and its correction by pyridoxine. *A. L. Luhby, M. Brin, M. Gordon, P. Davis, M. Murphy and H. Spiegel*
- 694 Relationships between excretion of steroid hormones and tryptophan metabolites in patients with breast cancer. *E. M. Bell, W. I. P. Mainwaring, R. D. Bulbrook, D. Tong and J. L. Hayward*
- 699 Abnormal tryptophan metabolism in pregnancy and with the oral contraceptive pill. I. Specific effects of an oral estrogenic contraceptive steroid on the tryptophan oxygenase and two aminotransferase activities in livers of ovariectomized-adrenalectomized rats. *M. Brin*
- 704 Abnormal tryptophan metabolism in pregnancy and with the oral contraceptive pill. II. Relative levels of vitamin B₆-vitamers in cord and maternal blood. *M. Brin*
- 709 Relationship between urinary excretion of kynurenine and liver tryptophan oxygenase activity. *O. Greengard*
- 712 Growth hormone and tryptophan oxygenase activity. *A. Korner*
- 718 Effects on net plasma protein synthesis of removal of L-tryptophan or L-threonine from a complete amino acid mixture: studies in the isolated perfused rat liver. *L. L. Miller and E. E. Griffin*
- 730 Tryptophan metabolism in patients with pellagra: problem of vitamin B₆ enzyme activity and feedback control of tryptophan pyrrolase enzyme. *L. V. Hankes, J. E. Leklem, R. R. Brown, and R. C. P. M. Mekeel*
- 740 The role of tryptophan pyrrolase adaptation in the excretion of xanthurenic acid by rats deficient in vitamin B₆. *R. J. Milholland and F. Rosen*

Number 7, July 1971

Symposium

Biochemistry and pathology of tryptophan metabolism and its regulation by amino acids, vitamin B₆ and steroid hormones. Guest editor *R. R. Brown*

Part II

- 751 Effects of tryptophan metabolites on enzymes of oxidative phosphorylation. *E. Quagliariello and F. Palmieri*
- 764 The role of tryptophan metabolites in regulating gluconeogenesis. *H. A. Lardy*
- 766 Studies on the mechanism of tryptophan induction of certain hepatic enzymes. *R. Kido, M. Nishino and H. Tsuda*
- 770 Functional nature of the polysomes as indicated by the influences of insulin-glucose and adrenalectomy-cortisol on rat liver polysomes in vivo. *J. S. Wittman, III and O. N. Miller*

- 777 Factors affecting ribosomal aggregation in the isolated perfused rat liver.
P. B. Swan, E. McGown, A. Richardson and L. M. Henderson
- 779 Effect of tryptophan on polyribosomes and protein synthesis in liver.
H. Sidransky, E. Verney and D. S. R. Sarma
- 786 Effects of steroid conjugates on availability of pyridoxal phosphate for kynureninase and kynurenine aminotransferase activity. *M. Mason and B. Manning*
- 792 Hormonal alteration of efficiency of conversion of tryptophan to urinary metabolites of niacin in man. *H. Wolf*
- 800 Regulation of nicotinamide metabolism. *L. S. Dietrich*
- 805 Localization and some properties of kynurenine-3-hydroxylase and kynurenine aminotransferase. *O. Hayaishi and H. Okamoto*
- 807 Studies of tryptophan metabolism in experimental animals and man during infectious illness. *M. I. Rapoport and W. R. Beisel*
- 815 Effects of amino acid derivatives and drugs on the metabolism of tryptophan. *T. L. Sourkes*
- 821 Central nervous system hypersensitivity to tryptophan. *D. B. Coursin*
- 826 A possible diabetogenic role for tryptophan metabolites and effects of xanthurenic acid on insulin. *Y. Kotake and E. Murakami*
- 830 Effects of adrenal hormones and stress on brain serotonin. *G. Curzon*
- 835 Anergy and tryptophan metabolism in Hodgkin's disease. *V. T. DeVita, B. A. Chabner, D. M. Livingston and V. T. Oliverio*
- 841 The role of urinary tryptophan metabolites in the etiology of bladder cancer. *G. T. Bryan*
- 848 A possible role of urinary metabolites of tryptophan in the heterotopic recurrence of bladder cancer in man. *O. Yoshida, R. R. Brown and G. T. Bryan*

Letters to the editor

- 853 Assessing the nutritional status of the mentally retarded. *S. M. Garn and H. F. Weir*

Brief communications

- 855 Serum cholesterol and triglycerides during mild glucose intolerance.
T. S. Danowski, R. C. Khurana, Y. Jung, J. P. Wingert, J. H. Aarons, C. Katz and D. G. Corredor
- 859 Neutropenia in prolonged fasting. *E. J. Drenick and L. C. Alvarez*

Original communications

- 864 Ethnic differences in skin-fold thickness. *J. R. K. Robson, M. Bazin and R. Soderstrom*

Comments in biochemistry

- 869 Water and sodium retention in the fasted and refed human. *D. M. Gozansky and R. H. Herman*

Comments in gastroenterology

- 872 Can small daily doses of antibiotics prevent the cycle of diarrhea, malabsorption, and malnutrition in children? *N. Hirschhorn*

Methods in nutrition

- 876 Plasma amino acids: screening, quantitation, and interpretation. *C. R. Scriver, C. L. Clow and P. Lamm*

PHS publications

- 891 Height and weight of children in the United States, India, and the United Arab Republic.

Number 8, August 1971**Letters to the editor**

- 893 Linear hypoplasia of deciduous incisor teeth in malnourished children. *D. B. Jelliffe and E. F. P. Jelliffe*
893 Malversation in hair analyses. *A. Flynn, R. B. Fratianne, O. A. Hill, Jr., W. J. Pories and W. H. Strain*
895 Fluoride content of sea salt and dental health. *R. Jagadiswara Rao*

Original communications

- 897 Metabolism and plasma protein transport of vitamin D₃ in the baboon. *S. J. Rosenstreich, W. Volwiler and C. Rich*
906 Serum glycoproteins in protein-calorie deficiency disease. *V. N. Patwardhan, R. H. Maghrabi, W. Mousa, M. K. Gabr and S. el Maraghy*
913 Metabolic aspects of caloric restriction: nutrient balances with 500-kilocalorie intakes. *H. L. Johnson, C. F. Consolazio, H. J. Krzywicki, G. J. Isaac and N. F. Witt*
924 In vivo and in vitro penetration of vitamins into human red blood cells. *M. F. Sorrell, O. Frank, H. Aquino, A. D. Thomson and H. Baker*

Dietary management and therapy

- 930 The role of a metabolic ward in nutritional studies. *R. E. Hodges*

Perspectives in nutrition

- 934 Analysis of plasma and urinary amino acids by ion-exchange column chromatography. *B. J. Berridge, Jr., W. R. Chao and J. H. Peters*

Methods in nutrition

- 940 Microtechniques for the automated analysis of serum total protein and albumin, urinary urea, creatinine, and hydroxyproline for nutrition surveys in developing countries. *D. G. Coward, M. B. Sawyer and R. G. Whitehead*
947 Influence of the dietary history of test animals on responses in pharmacological and nutritional studies. *L. M. Roeder and B. F. Chow*

International Nutrition

- 952 Nutritional status of the Puerto Rican population: master sample survey. *N. A. Fernández, J. C. Burgos, C. F. Asenjo and I. Rosa*

Symposium

- The uniqueness of human milk. Guest editors *D. B. Jelliffe and E. F. P. Jelliffe*
- 968 Introduction. *D. B. Jelliffe and E. F. P. Jelliffe*
- 970 Biochemical aspects. *P. György*
- 976 Host resistance to infection. *L. J. Mata and R. G. Wyatt*
- 987 Mammary effects. *M. Newton*
- 991 The convenience of breast feeding. *M. Tompson*
- 993 Psychologic differences between breast and bottle feeding. *N. Newton*
- 1005 Economic aspects. *J. McKigney*
- 1013 An overview. *D. B. Jelliffe and E. F. P. Jelliffe*

Number 9, September 1971**Brief communications**

- 1025 Binding of copper by human alimentary secretions. *J. L. Gollan, P. S. Davis and D. J. Deller*

Original communications

- 1028 Vitamin B₆ requirement of young adult women. *E. A. Donald, L. D. McBean, M. H. W. Simpson, M. F. Sun and H. E. Aly*
- 1042 Calorie and nutrient contribution of alcoholic beverages to the usual diets of 155 adults. *H. T. Bebb, H. B. Houser, J. C. Witschi, A. S. Littell and R. K. Fuller*
- 1053 Plasma amino acids in schizophrenic patients with methionine or cysteine loading and a monoamine oxidase inhibitor. *J. K. Spaide, J. M. Davis and H. E. Himwich*
- 1060 Thiamin, riboflavin, and pyridoxine excretion during acute starvation and calorie restriction. *C. F. Consolazio, H. L. Johnson, H. J. Krzywicki, T. A. Daws and R. A. Barnhart*
- 1068 Adverse effects of dietary gluten in four patients with regional enteritis. *D. Rudman, J. T. Galambos, J. Wenger and J. L. Achord*

Perspectives in nutrition

- 1074 Lipid profile and the potential coronary victim. *W. B. Kannel*

Methods in nutrition

- 1082 Trace metal methods for nutritional studies. *D. M. Livingston and W. E. C. Wacker*
- 1086 Analyses of phospholipids, ceramides, and cerebrosides by gas chromatography and gas chromatography-mass spectrometry. *M. G. Horning, S. Murakami and E. C. Horning*

International nutrition

- 1097 Religious influence on dietary intake and physical condition of indigent, pregnant Indian women. *S. L. Matter and L. M. Wakefield*

Nutrition news

- 1107 The Norman Jolliffe Medical Student Fellowship Awards

Symposium

Assessment of typical daily energy expenditure. Guest editor *R. B. Bradfield*

Part I

- 1111 Introduction. *R. B. Bradfield*
1113 Estimation of habitual physical activity by questionnaire and interview.
H. J. Montoye
1119 Comparison of two assessments of physical activity and a survey method for
calorie intake. *E. R. Buskirk, D. Harris, J. Mendez and J. Skinner*
1126 The indirect measurement of energy expenditure in industrial situations.
M. E. Maxfield
1139 Net heart rate as a substitute for respiratory calorimetry. *R. B. Andrews*
1148 A technique for determination of usual daily energy expenditure in the field.
R. B. Bradfield
1155 Technical aspects of monitoring the heart rate of active persons. *H. M. Hanish,*
R. A. Neustein, C. C. Van Cott and R. T. Sanders
1164 Prediction of daily energy expenditure from average pulse rate. *P. R. Payne,*
E. F. Wheeler and C. B. Salvosa
1171 Evaluating work performance. *H. L. Davis, T. W. Faulkner and C. I. Miller*
1180 Body weight, heart rate, and ventilatory volume relationships to oxygen up-
takes. *C. F. Consolazio, R. A. Nelson, T. A. Daws, H. J. Krzywicki,*
H. L. Johnson and R. A. Barnhart
1186 Use of the heart rate-energy expenditure relationship in the individualized
prescription of exercise. *J. H. Wilmore and W. L. Haskell*

Number 10, October 1971

- 1193 **McCollum Award**

Guest editorials

- 1195 Dietary factors and ischemic heart disease. *S. L. Malhotra*
1199 Tempest in a teapot. *T. B. Eyl*

Brief communications

- 1204 High phytate content of rural Iranian bread: a possible cause of human zinc
deficiency. *J. G. Reinhold*
1207 Feeding problems and preschool intelligence scores: a study using the co-twin
method. *A. M. Brown and A. P. Matheny, Jr.*
1210 Selenium concentration in human saliva. *D. M. Hadjimarkos and T. R. Shearer*
1212 Serum triglycerides and fatty acids in kwashiorkor. *G. O. Taylor*

Original communications

- 1216 Reassessment of amino acid requirements of young women on low nitrogen
diets. II. Leucine, methionine, and valine. *H. Fisher, M. K. Brush and*
P. Griminger

- 1224 Alkaline phosphatase and disaccharidase activities in the rat intestine from birth to weaning. I. Effect of diet on enzyme development. *R. Goldstein, T. Klein, S. Freier and J. Menczel*
- 1232 Influence of alpha-tocopherol on the inhibition of beta-glucuronidase by peroxidized linoleic acid. *L. H. Chen and L. V. Packett*
- 1238 Lowered cholesterol catabolism in guinea pigs with chronic ascorbic acid deficiency. *E. Ginter, J. Červeň, R. Nemec and L. Mikuš*
- 1246 Lysine supplementation of wheat and nitrogen retention in children. *V. Reddy*

Perspectives in nutrition

- 1250 Developments leading to the metabolic role of vitamin B₆. *P. György*

Methods in nutrition

- 1257 Assay of serum and whole blood folate by a modified aseptic addition technique. *A. F. Fleming, L. Comley and N. S. Stenhouse*
- 1265 Quantitative analysis of lipid classes. *O. S. Privett, K. A. Dougherty and J. D. Castell*
- 1276 Low-cost technique for metabolic balance studies. *A. G. Goldman and U. S. Barzel*

International nutrition

- 1281 Nutrient intake of Pima Indian women: relationships to diabetes mellitus and gallbladder disease. *J. M. Reid, S. D. Fullmer, K. D. Pettigrew, T. A. Burch, P. H. Bennett, M. Miller and G. D. Whedon*

Nutrition news

- 1290 American College of Nutrition, 12th annual session
- 1290 ASCN call for abstracts

Number 11, November 1971

Guest editorials

- 1291 Studies on the Masai. *C. B. Taylor and K.-J. Ho*
- 1294 Ascorbic acid and the common cold. *L. Pauling*

Letters to the editor

- 1300 Effect of controlled breakfast on serum cholesterol and triglycerides. *J. I. Mann and A. S. Truswell*
- 1300 Ascorbic acid. *J. M. Woodhill and S. Nobile*
- 1301 Protein foods: second stage in the green revolution. *C. G. King*

Original communications

- 1302 Absorption and metabolism of D(-) fructose in man. *G. C. Cook*
- 1308 Correlation between body volume and body mass in men. *D. K. Wakat, R. E. Johnson, H. J. Krzywicki and L. I. Gerber*

- 1313 Effect of chromium on glucose utilization in marasmic protein-calorie malnutrition. *C. T. Gürson and G. Saner*
1320 Milk consumption patterns of Puerto Rican preschool children in rural New York. *D. Sanjur, E. Romero and M. Kira*
1327 Response of tropical sprue to poorly absorbed sulfonamides and oxytetracycline. *E. O. Horta, N. Maldonado, J. Fradera, R. Santini, Jr. and E. Vélez-García*

Dietary management and therapy

- 1337 Experience with an appetizing, high protein, low folate diet in man. *E. R. Eichner, N. Buerger and R. S. Hillman*

Perspectives in nutrition

- 1346 Evidence for a new kidney-produced hormone, 1,25-dihydroxycholecalciferol, the proposed biologically active form of vitamin D. *A. W. Norman*
1352 A curriculum for the nutrition programmer. *J. B. Cordaro and F. J. Levinson*

International nutrition

- 1354 Role of a dietary goitrogen in the etiology of endemic goiter on Idjwi Island. *F. Delange and A. M. Ermans*
1361 An epidemiological study of child health and nutrition in a northern Swedish county. VI. Relationship between general and oral health, food habits, and socioeconomic conditions. *G. Samuelson, H. Grahnén and E. Arvidsson*

- 1374 **Nutrition news**

Number 12, December 1971

Guest editorials

- 1377 Age-independent anthropometry. *D. B. Jelliffe and E. F. P. Jelliffe*
1380 Relative values of different fat folds in a nutritional survey. *S. M. Garn, N. N. Rosen and M. B. McCann*

Brief communications

- 1382 Lack of an effect of oral L-histidine on the serum cholesterol in human subjects. *D. A. Gerber, J. E. Sklar and J. Niedzwiedowicz*
1384 Factors influencing the nutritive value of 1,2-dichloroethane-extracted fish protein concentrate in rat diets. *D. Makdani, W. G. Bergen, O. Mickelsen and J. T. Huber*
1390 Folate levels in citrus and other juices. *R. R. Streiff*

Comments in gastroenterology

- 1393 Glucose and intestinal absorption in man. *C. D. Gerson*

Reports of meetings

- 1399 Nutrition education in medical faculties

Nutrition news
